

International Journal of Advances in Engineering & Technology (IJAET)

ISSN: 2231-1963

Call for Special Issue of ICCE 2012 Clean Energy and Sustainability

**Deadline for
submission of
abstracts:
May 15, 2012**

Scope of the topic

The ICCE 2012 covers a wide range of topics in clean energy area. Some of the topics covered are and not limited to the following: Biomass energy, materials and technologies, Hydro energy, materials and technologies, Wind energy resources and technologies, Solar cells energy, materials and technologies, Fuel cells materials and hydrogen energy, Nanotechnology and energy, Green buildings, Energy, Environment and Sustainable Development and Clean Energy Market and Finance. These topics offer the opportunity for many researchers, students, scientists, engineers, educators, government officials, consultants, managers, and others from across the world to share their findings and research and have significant discussions pertaining to these topics.

**We would like to
invite you to
contribute a
Research Paper
for publication in
Special Issue of
ICCE 2012.**

Topics Covered

This conference is organized to share and discuss recent developments in clean energy sector. Many new process technologies have been in recent years developed in the field of clean energy, and many have been adopted by the industry. ICCE 2012 will provide a forum for the exchange of latest technical information, for the presentation of the new developments in the clean energy area and for the debate and shaping of future directions and priorities in sustainable development and energy security.
